50X1-HUM

three outstanding Hungarian scientists, Dr Bela Issekutz, Dr M Jancso, and Dr I Rusznyak. Dr Issekutz was head of the department of pharmacology at the University of Budapest, consultant to Chinoin in 1949, and then engaged in thyroid research. he still /1953/ holds these positions. Dr Jancso was engaged in research on the reticulo endothelial system in 1949 and, from technical literature, he is with the Department of Pharmacology at the University of Szeged as recently as 1953. Dr Rusznyak is, of course, well known as the Chairman of the Hungarian Academy of Sciences and for his work in the fields of internal medicine and physiology.
